Join us for a series of webinars where we discuss various aspects of fathering. During these webinars fathers will discuss their path to and the journey of fatherhood. We know dads want to be prepared and are searching for information. Our partnership with March of Dimes is committed to ensuring fathers are prepared to support their partners before, during, and after pregnancy. These sessions will encourage dads to be the best fathers they can be to give their kids the best possible start and support them at all stages of development.
