The Council discussed which focus areas it would like to include in its next Workplan. The initial preferred focus areas were: (1) Helping Facilities with Succession Planning, which could include linking estate planning resources to Grand Families or kinship care families; (2) Increasing Focus Groups and Listening Sessions, to help gain more insights from the community about its needs and to continue advocacy efforts; (3) Improving Resource Hubs and Fairs, including for mental health services and the concepts of private company appointed "navigators" links to service providers. Michael observed that all of the working focus areas shared a common theme "Connecting Voices" that the Council could use in terms of naming or promoting its Workplan. Beth announced that the Council will further refine its Workplan at its June meeting.
- B. Data Committee Report: Dawn reported that the Committee met in April and continues to await some data points requested from JWB.
